

Maintenance of the ROBOT

In order to maintain the quality of a welded product of TAWERS
We recommend you a periodical maintenance.

For example,
TAWERS is very good welding machine ,but the feeder unit makes it possible.
You need grease up there is a gear in the feeder unit.
If do not grease up then gear is worn out and will be broken or with error

WARNING!!!

Shoei Techno Service Thailand Co.,Ltd.

STRAIGHT OR ROTARY WELDING SYSTEM

We propose welding automatic equipment
Modification of existing facilities and new
production
will be carried out.

STRAIGHT WELDING SYSTEM CONTROLLER

SPEC
WELDING PROGRAM 50 pattern
PROGRAM STEP 20 position
POSITION SETTING ACCURACY 0.1mm
TEACHING PROGRAMING / MID PROGRAMING
CLAMP / UNCLAMP CONTROLL
CREATER TIME SETTING
PRODUCT PRESET COUNTER
LANGULAGE ENGLISH / JAPAN / THAI
WELDING CONDITION 16 PATTERN(OP)
WELDING MACHINE(OP)

ROTARY WELDING SYSTEM CONTORROLER

SPEC
WELDING SPEED 30 pattern
WELDING CONDITION 16 pattern (OPTION)
GAS PREFLOW AFTER FLOW CONTROLL
OVER LAP SPEED /CONDITION
CLAMP / UNCLAMP CONTROLL
LANGULAGE ENGLISH / JAPAN / THAI
WELDING CONDITION 16 PATTERN(OP)
WELDING MACHINE(OP)
